

EMS, First Responders Thanked For Response

On behalf of our family, I would like to thank the North Wilkesboro Fire Department's first responders and the Wilkes County EMS staff who responded to our 911 call when our dad, Jim Spicer, suffered a cardiac arrest on Dec. 7.

Response was immediate and professional. Professionalism continued when Daddy arrived in the emergency department at Wilkes Regional Medical Center, where the staff stabilized Daddy and provided assurance for his family.

While Daddy succumbed to the damage his heart suffered, he received excellent care, and citizens of Wilkes County are fortunate to have these services available.
